Re: Exemption No. 11036B, Regulatory Docket No. FAA-2014-0161

Ladies/Gentlemen:

In accordance with 14 CFR Part 11, Southwest Airlines hereby petitions the Federal Aviation Administration to grant an extension of Exemption No. 11036B (FAA Docket No. FAA- 2014-0161), currently scheduled to expire on September 30, 2021. Exemption No. 11036B provides relief from 14 CFR §119.49(a)(4)(ii) and §121.631(a) by permitting Southwest Airlines to apply domestic and flag rules while conducting non-scheduled supplemental operations to airports not listed in its Operation Specifications (OpSpecs C070), provided certain conditions and limitations as described in Exemption No. 11036B are met.

This petition does not seek to change the conditions and limitations of the current exemption. Indeed, the conditions and reasons regarding public interest as described in our March 26, 2019 petition and acknowledged in Exemption No. 11036B regarding public interest and safety remain unchanged. The renewal of this exemption is not a controversial issue, and granting the requested extension will set no precedents. Accordingly, Southwest Airlines requests that a finding of good cause be made for waiving publication in the *Federal Register* (14 CFR §11.87). We appreciate the agency's prompt consideration and grant of the extension requested. To minimize the administrative burden on all parties, Southwest seeks a renewal of three (3) years.

Please contact the undersigned or Jim Stieve at 469-603-4259 or jim.stieve@wnco.com, if you have any questions or need additional information.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Jeff Hamlett", written over a white background.
